Purpose: *To promote personal growth and development of Therapeutic Touch® practice as a commitment to global healing.*

Goals:

1. To support the evolution of a global community of compassionate practitioners, researchers and educators to promote the Future Consciousness of healing worldwide.
2. To provide examples of how the practice-based theory of healing has evolved in various parts of the world.
3. To share self-reflective practices in the actualization of our roles as Therapeutic Touch practitioners

DEADLINE FOR SUBMISSIONS:
